

Supplementary Declaration for Special Data Categories

My application to EDAG Engineering GmbH (hereinafter referred to as "EDAG") contains special categories of personal data (e.g. details of my marital status which could provide information relating to my sex life or sexual orientation; health-related information; a photograph that allows conclusions regarding my ethnical origin and possibly also my eye-sight and/or religion to be drawn; similar sensitive data within the meaning of Art. 9 of the General Data Protection Regulation). My application may therefore not be processed in its present form without my consent.

I consent to the special categories of personal data contained in my letter of application and the enclosed documents to being processed by EDAG for the purpose of carrying out the application process. This consent shall serve solely to enable the application to be considered in its present form. This information shall not be taken into account during the application process unless – particularly in cases of severe disability – there is a legal obligation requiring this. My data shall not be disclosed to third parties. I am not obliged to give this consent, and can instead submit an application from which the special personal data categories have been eliminated, without this having any effect on my chances in the current application process. I may withhold my consent without stating any reasons, and withdraw any consent which has been given at any time - ideally online, via the recruitment system. In the event of withdrawal, my data which is covered by the previously given consent shall be deleted without delay. Should consent be withheld or withdrawn, however, the application I have already submitted cannot be considered in its present form.
